PRODUCT LIST - 2010 AUSTRALIAN WOOL - CAR CARE PRODUCTS

AUSTRALIAN DELUXE WOOL WASH MITT WITH THUMB - 8" x 10" Wash Mitt with Thumb - This super-soft, natural wool wash mitt with thumb is the most gentle way to wash your car. The extra long, soft, wool fibers keep the dirt away from the paint and help prevent scratching. The 8" x 10" size holds lots of car wash and speeds washing. A deluxe elastic wristband helps hold it on your hand and the thumb gives you better control. A wash mitt is our favorite way to wash a car. After use, rinse thoroughly, shake out the excess water and air-dry. When dirty, gently wash in Woolite, rinse thoroughly and air-dry. We do not recommend machine-washing as the laundry detergent will destroy the leather inner lining.

18001 Australian Deluxe Wool Wash Mitt With Thumb

AUSTRALIAN DELUXE WOOL CAR DUSTER - A 25" long lightweight duster with a 13" x 5" plush, 100% wool pelt duster head on a 12" long birch wood handle that gently lifts dry dust from your vehicle's surface using static electricity. The plush, 100% wool pelt duster head with thousands of soft, static electric charged fibers act as a magnet to naturally attract and hold dust without the use of chemicals. To charge the fibers with static electricity, simply shake or spin the duster to dislodge any trapped dust and then rub the fibers of the wool pelt in the palm of your hand in one direction for about 10 seconds. Gently glide the duster over the dusty surface and then repeat the shake/spin/charge cycle. When matted, brush with a soft brush to "fluff up" the fibers. When done with the duster, hang it up using the leather loop on the end of the handle.
