PRODUCT LIST - 2010 KOZAK - CAR CARE PRODUCTS

KOZAK AUTO DRY WASH CLOTH - 3.8" sq ft Dry Wash Cloth - The 3.8 square foot dusting cloth is made from specially treated 100% domestic, extra fine cotton fibers with a super plush nap to hold and lift dry dust from your car. The cloth is treated with a special formulation of dust attractants that are safe for your hands and your car's paint. To dust a car, open up the cloth, lay it on the paint, pick up one end and gently pull the cloth across the paint. Remove the cloth and snap it away from the car to shake off the dust. Repeat this process until the car is dust free. When finished shake out the cloth and refold it into its storage pouch. It will not remove mud, bird droppings, tree sap or other dried contaminants. Never wash the cloth as it will remove the dust attractant and ruin the cloth.
